

# Nature trail

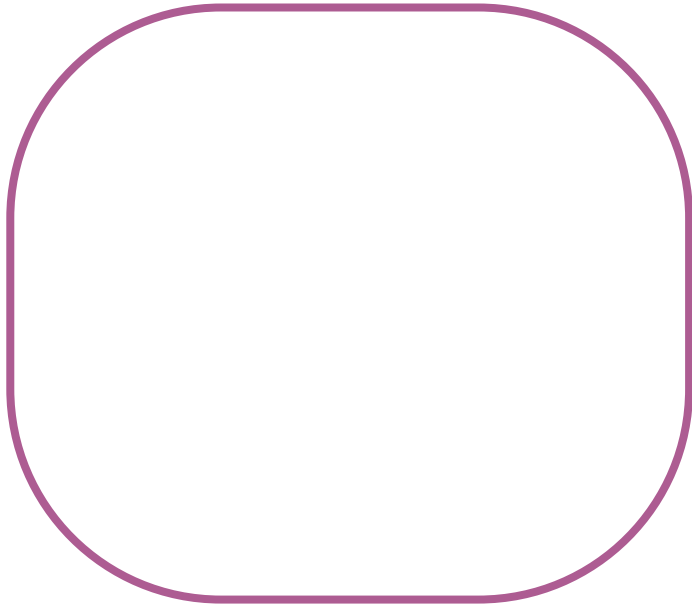

Print me A3  
size!

**Can you find all the rubbing plaques on the  
woodland walk?**

*Do a nature rubbing & complete the clues from the  
pictures on the trail posts along the woodland walk.*

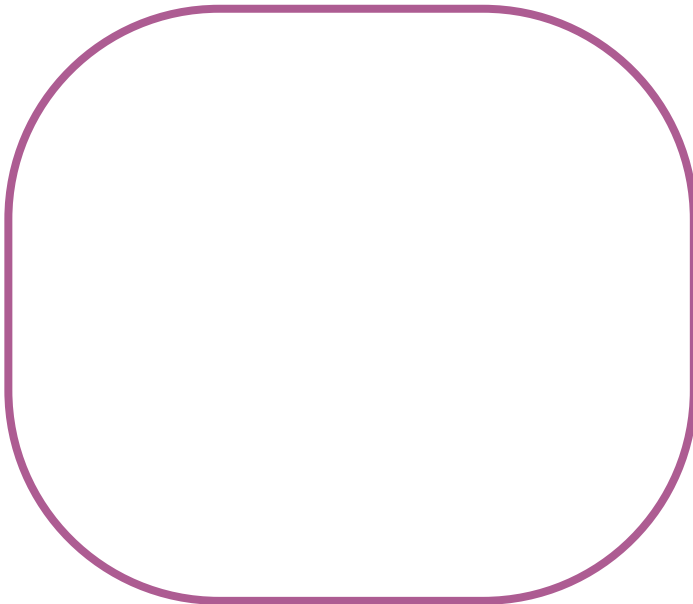

I have a long tail, eat nuts & scurry in the wood.

**I am a**

On a sunny day, I can be seen darting around  
feeding on other insects over ponds.

**I am a**

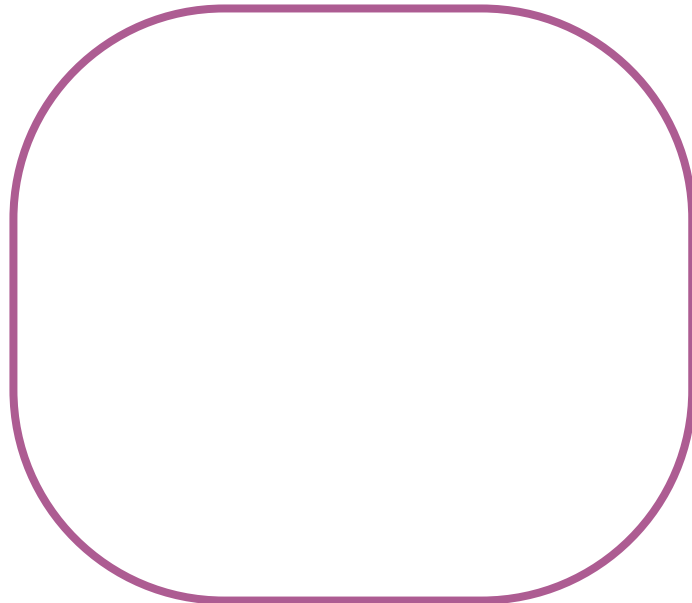

You might not see me, but can you spot the  
piles of soil I leave behind when digging tunnels?

**I am a**

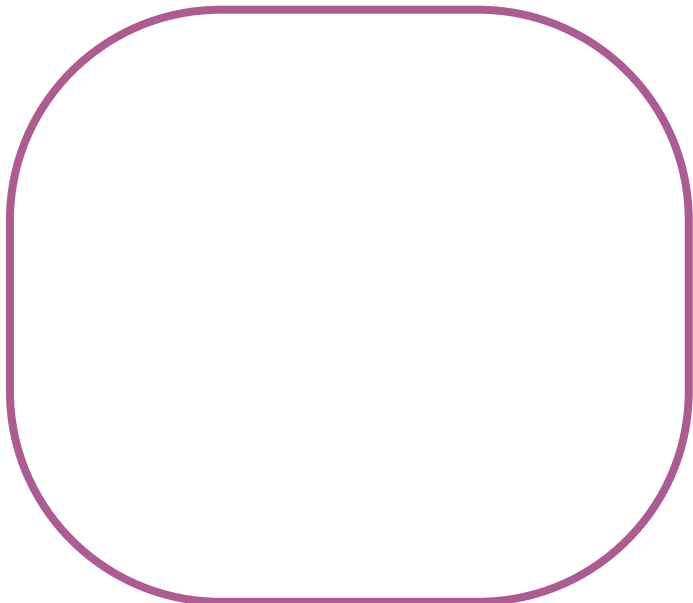

I fly at night & most people think I suck blood  
like a vampire but I actually eat insects.

**I am a**

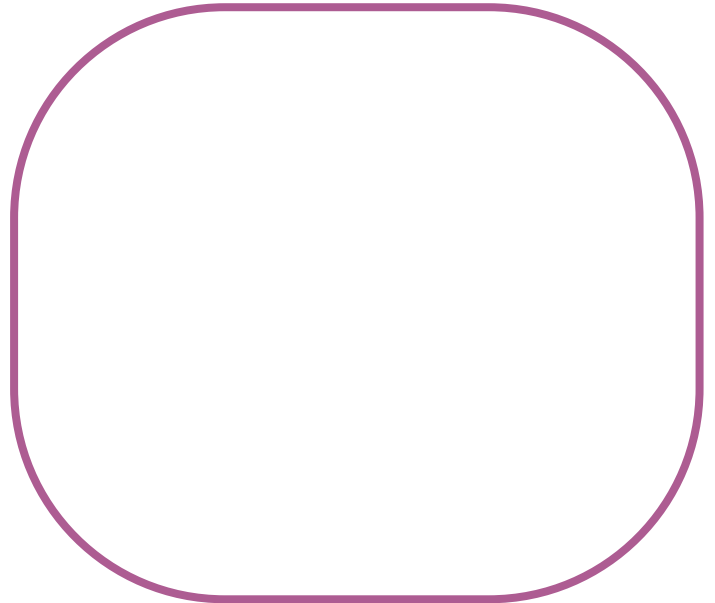

Before I become an adult & can fly, I am a very  
hungry caterpillar eating leaves and grasses.

**I am a**

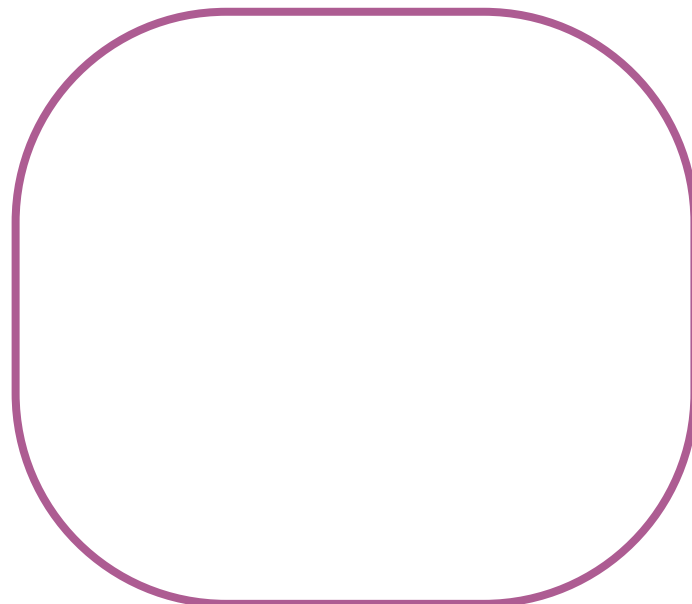

I am nocturnal, I sleep in the day & I am awake  
at night. I live underground in a sett.

**I am a**

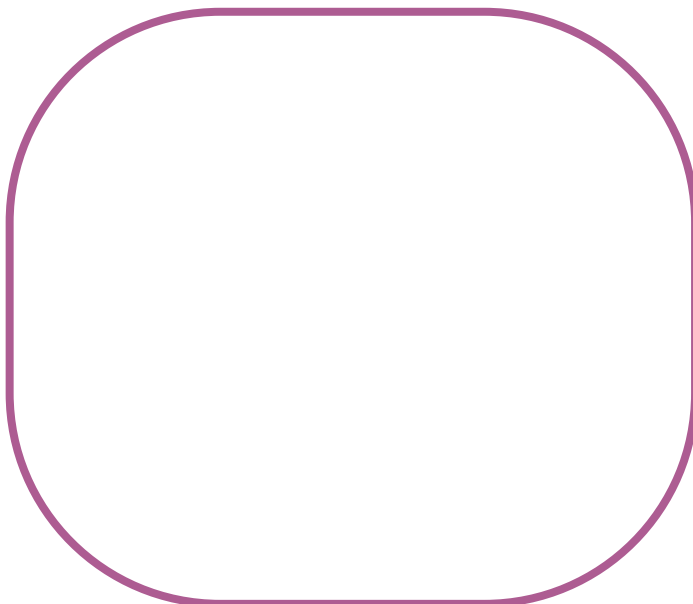

I have yellow & black stripes, feed on pollen &  
fly in a clumsy & bumbling manner.

**I am a**

In early spring I can be seen covering the  
woodland floor in a carpet of purplish-blue.

**I am a**

I look similar to a lizard, with 4 legs & a tail but I  
live on land & in the water. I can be seen in ponds.

**I am a**

I am a large black bird. I live in large groups  
called a Rookery & nest at the tops of trees.

**I am a**
